

CONSUMER VIEWS ON HEALTHCARE & LEGAL CANNABIS

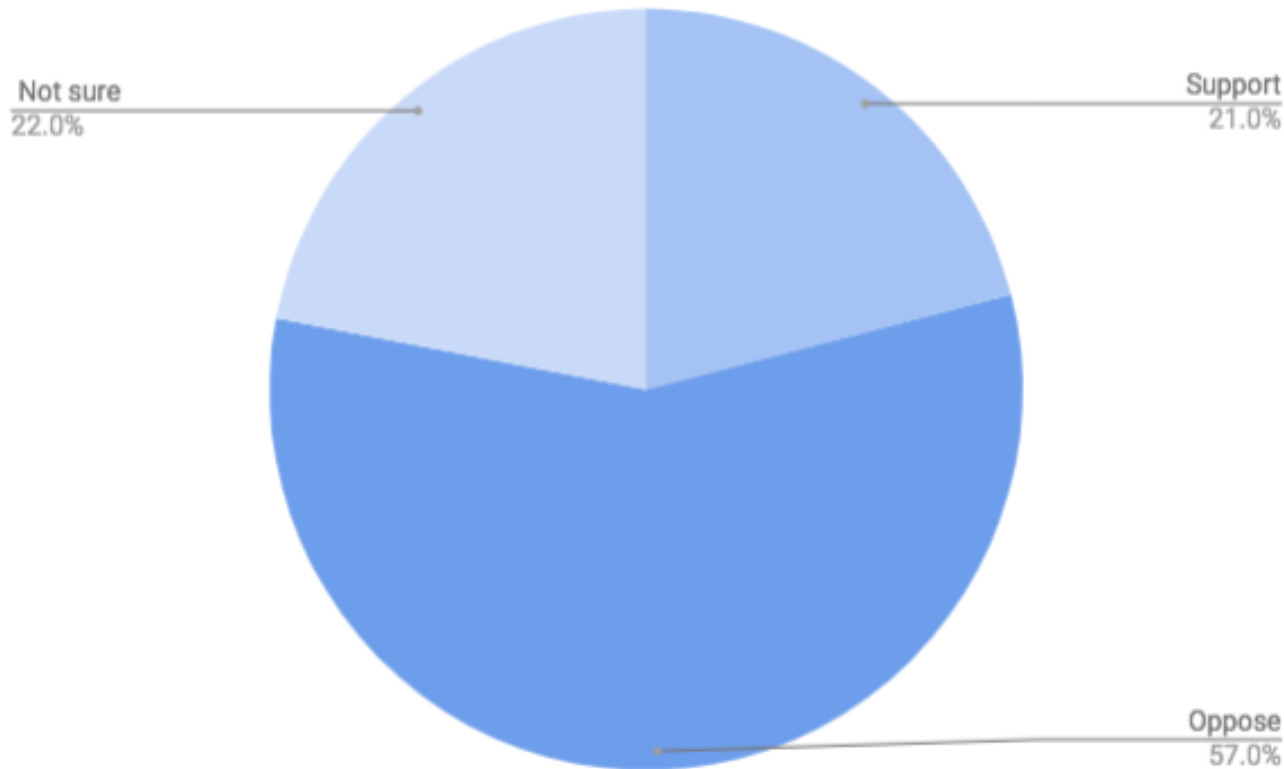

WISCONSIN

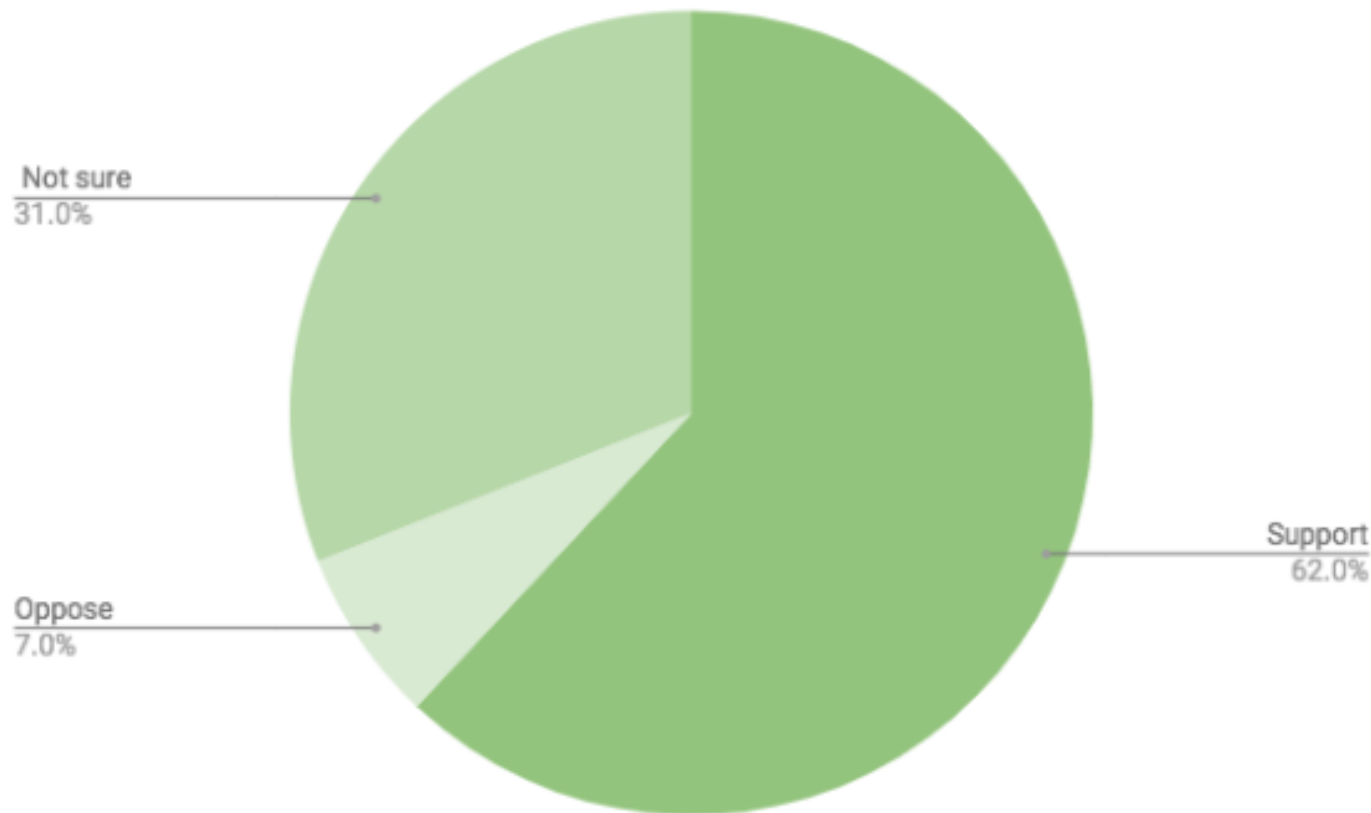

1. Do you support or oppose legalizing the recreational use of marijuana and regulating it like alcohol in Wisconsin?

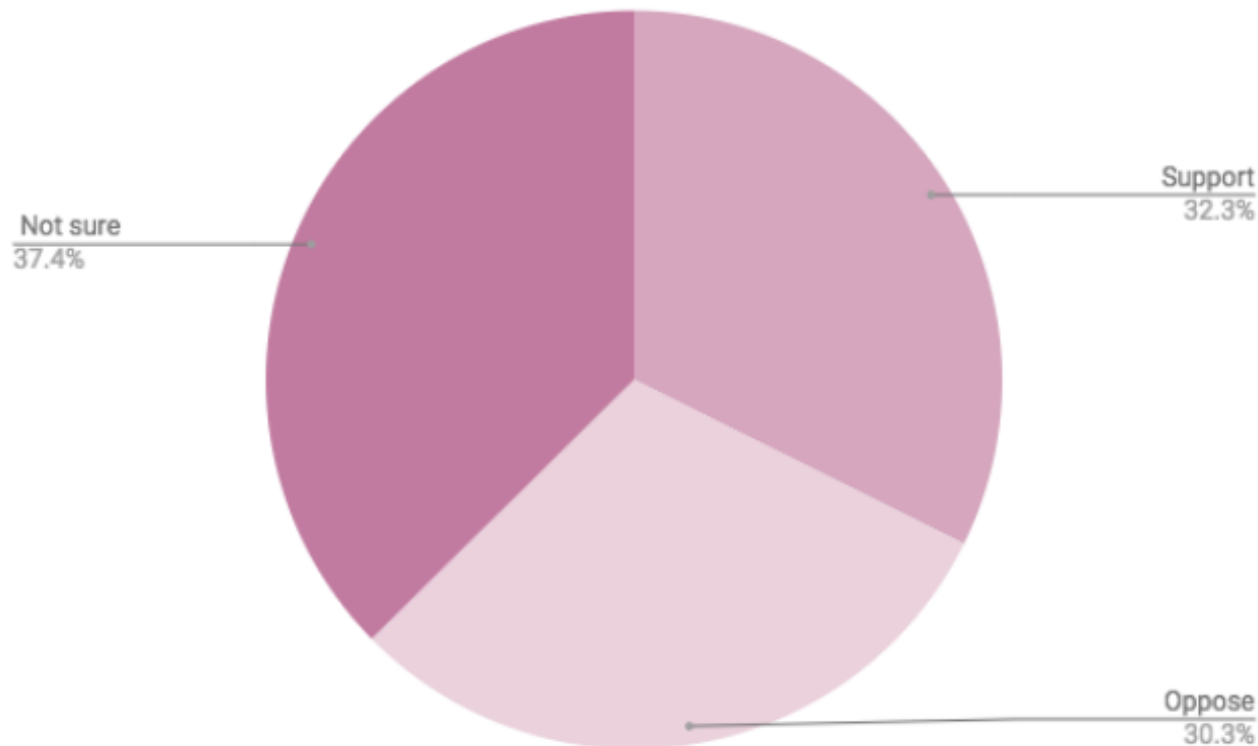

2. There is a bill in the Legislature to create the new mid-level profession of dental therapists, who would not require as much training or education as dentists. Would you support or oppose a proposal to allow dental therapists to perform most dental treatments, including irreversible procedures, like the extraction and drilling of teeth?

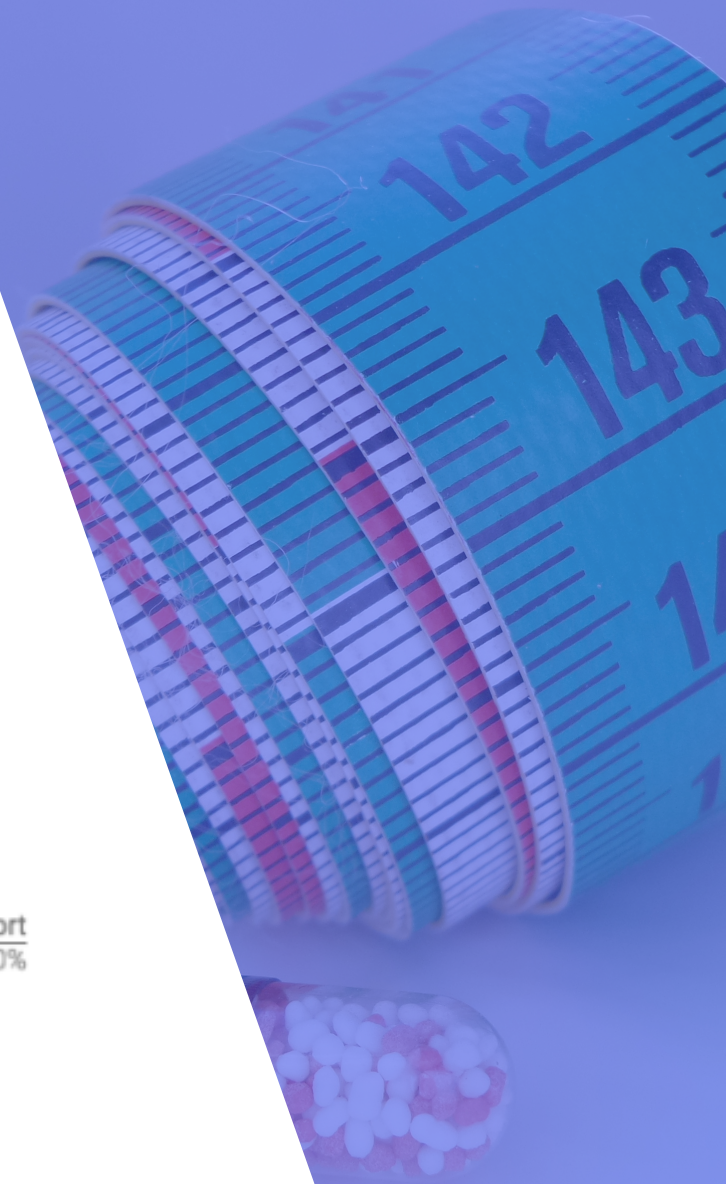

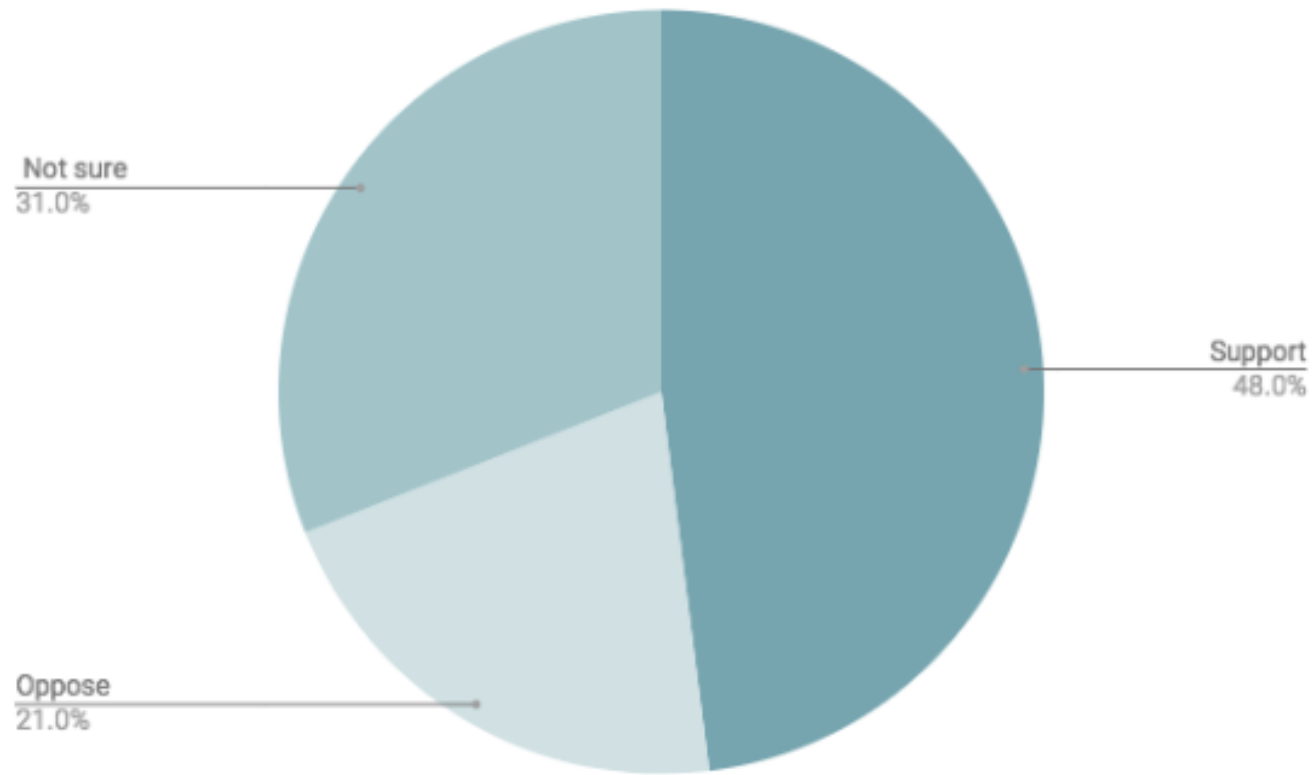

3. Unlike in other states, Wisconsin patients are not able to require that their insurance companies pay their healthcare providers directly. When it comes to healthcare payments, do you support or oppose the idea that your health insurance plan should be able to directly pay health providers for care?

4. Direct primary care is a flat fee-based model of healthcare delivery where a physician charges patients a monthly fee that covers all or most primary care services and doesn't involve insurance. Do you support or oppose legislation that would regulate direct primary care as insurance rather than a healthcare service?

5. In order to cut down on healthcare costs, would you support or oppose a proposal that would allow you to use your health savings account to contract with a direct primary care physician?

Conducted November 18-19, 2018 by Pulse Opinion Research
Wisconsin Survey of 750 Adults
